We've Got It All!

Rockapulco® Purple Impatiens Impatiens 'BALFIEPRIM'

Hardiness Zone: (annual)

Other Names: Busy Lizzie, Busy Lizzy

Group/Class: Rockapulco Series

Description:

Light up shady areas with masses of purple-pink blooms that look like miniature rosebuds; easy to care for; an elegant look for your containers or landscape

Ornamental Features

Rockapulco Purple Impatiens is bathed in stunning purple round flowers with pink overtones at the ends of the stems from mid spring to mid fall. Its small pointy leaves remain dark green in colour throughout the season.

Landscape Attributes

Rockapulco Purple Impatiens is a dense herbaceous annual with a mounded form. Its medium texture blends into the garden, but can always be balanced by a couple of finer or coarser plants for an effective composition.

This plant will require occasional maintenance and upkeep, and should not require much pruning, except when necessary, such as to remove dieback. It has no significant negative characteristics.

Rockapulco Purple Impatiens is recommended for the following landscape applications;

2641 St. Mary's Road Winnipeg, Manitoba

Phone: (204) 257-2893 Email: info@rpgc.ca

- Mass Planting
- Border Edging
- General Garden Use
- Container Planting
- Hanging Baskets

Planting & Growing

Rockapulco Purple Impatiens will grow to be about 16 inches tall at maturity, with a spread of 20 inches. When grown in masses or used as a bedding plant, individual plants should be spaced approximately 12 inches apart. Its foliage tends to remain dense right to the ground, not requiring facer plants in front. This fast-growing annual will normally live for one full growing season, needing replacement the following year.

This plant does best in partial shade to shade. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid. It can be propagated by cuttings; however, as a cultivated variety, be aware that it may be subject to certain restrictions or prohibitions on propagation.

Rockapulco Purple Impatiens is a fine choice for the garden, but it is also a good selection for planting in outdoor containers and hanging baskets. It is often used as a 'filler' in the 'spiller-thriller-filler' container combination, providing a mass of flowers against which the thriller plants stand out. Note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
